OBJECTIVES

To work in a stimulating environment that would hone my skills and provide me ample opportunities for development in all spheres so that I can give my best to the organization that I work for.

SUMMARY

Worked as a Software Engineer in Flexiloans Pvt Ltd a fintech Company, NBFC Domain and handling loan management system in Mumbai.

- Responsible for creating and enhancing the backend services application programming interface from the server to the client implementing Microservices architecture.
- Fulfilling the business/product/engineer requirement for frontend and as well as backend logic using Node js, Javascript, MySQL, Mongo(If required), Angular JS
- Taking up the full responsibility of the fully owned services, with efficiently delivering high-quality products.
- Developing more efficient modules in current owning services to fasten up the process and a bug-free process.

TECHNICAL SKILLS

- Programming Languages : Nodejs, Javascript, Angular JS
- Scripting Languages : HTML, CSS
- Database : MySQL, Mongo DB(only if required)
- Operating System : Windows 10, Mac OS X.
- Others : JIRA, GIT Hub

EXPERIENCE

Nimap Infotech, Lower Parel, Mumbai - Software Developer

OCTOBER 2020 – Present
